# Books for the Touchscreen Generation

Give your patrons beautiful children's books that look fantastic on all computers, phones & tablets.

At Xist Publishing, we create books for the touchscreen generation. All of our children's picture books are designed for the devices that kids crave and we are committed to encouraging a lifetime love of learning, no matter what form it takes.

As a digital-first publisher, children's ebooks are our first priority. But we also know that parents love to snuggle up with their kids and flip through a picture book—so we do that too. As technology evolves, kids will too. As parents ourselves, we want to make sure that no matter how kids are reading in the future, they're reading and loving it. Visit us at <http://xistpublishing.com> to learn more about our books for kids.
